

**RESMED**

# **ConvertAble™ Series**

**A brand new concept in nasal masks**

**More Convenience, Choice, Cost Savings**

# ConvertAble™ Series

## The choice of two mask cushions

The ConvertAble™ Series is a ResMed exclusive, offering the choice of two high-performance cushions—Mirage™ SoftGel or Mirage Activa™ LT—on one durable frame. The benefits:

- **Convenience** — You can easily swap mask cushions without costly replacements
- **Choice** — Two mask options empower clinicians to choose the best seal for each patient
- **Cost savings** — Common parts streamline inventory and interchangeable cushions lower switching costs

There's less inventory, less hassle and more opportunity to drive replacement. Only ResMed supplies the ConvertAble frame—providing the best possible solutions for your patients.

**All backed by ResMed's guarantee of quality and durability.**

## Mirage Activa™ LT

### NASAL MASK

#### Activa LT with ActiveCell™ for active sleepers

- ActiveCell inflatable chamber provides an active seal to move with the patient as they sleep
- Functions as an independent suspension helping to keep the cushion in place
- Thick inner cushion provides comfortable support and stability
- Thin outer cushion seals lightly against the face and prevents facial marking

on one durable frame.

**ResMed's exclusive ConvertAble frame**

- **MicroFit dial** — 24 positions for easy and precise adjustment
- **Flexible forehead pads** — provide support and comfort
- **One-snap elbow** — 360 degree rotation for flexibility
- **Headgear clips** — quick-release for added convenience
- **Diffused vents** — direct airflow quietly away for comfort
- **Quiet** — provide peaceful sleep for patient and bed partner

## Mirage™ SoftGel

### NASAL MASK

#### SoftGel comfort for strong compliance

- Easy, intuitive first-time fit
- DoubleGel™ cushion automatically conforms to patient's face, offering a personalized fit and seal
- Two layers for comfort and stability
- Patient-preferred over competitor masks

**Softness:** The clear layer lightly seals and conforms to unique facial features

**Support:** The blue gel layer provides support and stability

<b>Month 10</b>  A7032	<b>Month 11</b>  A7032	<b>Month 12</b>  A7032

\*Either SoftGel or Activa LT cushion can be dispensed on an ongoing basis.

The Medicare schedule does not state how often Medicare recipients should replace accessories, but it does state how often they can be replaced if necessary. It is always the provider's responsibility to determine and submit appropriate codes, charges, modifiers and bills for the services that were rendered. Before filing any claims, providers should verify current requirements and policies with the payor.
